

Award of Excellence

CINET has set up a benchmark for **Wet Cleaning** to show the industry that modern **Wet Cleaning** is a suitable technology for the Professional Textile Care industry.
CINET is happy to acknowledge:

Alliance Laundry Systems LLC

with the CINET statement of achievement on wet cleaning. The statement is acknowledged because CINET has established that
Alliance Laundry Systems LLC has met with the CINET-standards for **Wet Cleaning**.

The global standards for **Wet Cleaning** as set by CINET are:

1. For stain removal, the standard is that the sum of the stain removal for all non-watersoluble stains should be >100 and the sum of the stain removal in % for all watersoluble stains should be >125.
2. The standard for greying is that the greying should be < 10 after 10 cleaning cycles.
3. To pass the assessment of the visual appearance, all aspects should be assessed 1 or 2 after 3 cleaning cycles.
4. The dimensional change of the garments should be 2% or less after 3 cleaning cycles. The dimensional change is measured after finishing.

Mr. P.N.M. Wennekes,
CINET President/CEO
