

LETTER OF APPRECIATION

05 July 2020

To: The manager (Shaun van Breda)

Lead Laundry & Catering – Nelspruit

On behalf of Muravha JV Blessed Engineering Solutions, I want to extend a heartfelt THANK YOU for a job well done by your team in making sure that the project of new laundry equipment installation at Tonga hospital on 02/07/2020 was a success. Given the tight schedule that we had, your company showed a lot of flexibility and expertise in executing and delivering this project on time and in a professional manner.

In particular, I want to send my appreciation to the dynamic duo, Peter and Jacques for their experience, work ethics and pure commitment in getting the job done. The speed and focus that these two gentlemen display when they are working is unmatched, they are some of the best people I have ever had the pleasure of working with and I think that you are very lucky to have them in your team.

The Tonga project was a huge success and I'm pleased to say that the client is very happy and very satisfied ... THANK YOU.

Regards

Vincent Ncube
