EVO ARS Folded Heated Vacuum Ironing Table

FIT Ironing Table

Where your finishing requirement needs to cater to large items (like sheets), but where the volume to be processed does not justify the substantial investment required for a roller iron; then we have custom made an ironing table to meet your needs. At a fraction of the cost of a roller iron you achieve a 5 star finish with two hand irons operating from each side of the table.

Perforated table top clad in a tailor-made padding allows steam and moisture to escape underneath the table for best ironing results. A 15 amp plug point, two utility hooks and a suitable platform for a miniboiler are located at each of the two ironing stations. Operate with Sewoong Pen 520, or ideally the Minivapour for best results.

DESCRIPTION / MODEL	FIT Ironing Table - Industrial
Brand / Supplier	
Width	80cm
Depth	250cm ironing surface + 2 side plates of 30cm each Total 310cm
Height (Table)	82cm
