DCS4050-60 Platform Scale

SD1010 Platform Scale

DCS4050-60 PLATFORM SCALE

This floor scale features a low profile design for easy loading and unloading, incorporating a durable stainless steel platform and non slip checkered plate for added grip. Heavy duty rubber feet support the four OIML approved loadcells ensuring quality and longevity of the bases.

Features

- Adjustable levelling feet
- C3 OIML approved loadcell installed
- Checker treadplate
- 4 Loadcell construction
- 3M of loadcell cable
- Heavy duty rubber feet.

SD1010 PLATFORM SCALE

The SD1010 offers all the features needed for weighing, check weighing with LED limit indicators and parts counting application with fully selectable sample or unit weight. Built tough for a variety of industries the SD1010 can meet the demands of warehouse, production floor or even medical applications.

Check weighing applications are trouble free with amber, green and red indicators to show the operator if the item is under, over or at the preset limits. A stainless steel top pan offers ample weighing surface and a standard pillar allows for easy mounting of the indicator if desired. The SD1010 includes a RS-232 interface with date and time, bright backlit display with capacity tracker, a built-in rechargeable battery and external power supply.

The SD1010 offers a range of features designed for a many different applications.

Highlights

LED indicators for easy recognition of underweight, overweight and acceptable limits makes check weighing applications quick and simple. The colour limits can be programmed to turn on together or in sequence for a more detailed indication.

Bright backlit display with capacity tracker is easy to read. The tracker shows the operator where they are in the weighing range, when using the tare function, to help prevent the user from exceeding the scales capacity.

Full numeric keypad allows for preset tare functions and freely selectable sample size when in counting mode. The keypad and functions can be locked out by a supervisor if needed to stop settings from being changed.

WEIGHING SCALES

Features

- Full tare range
- Easily accessible internal rechargeable battery
- Large backlit LCD display with capacity tracker
- Battery operation with auto-off to save battery life
- Parts counting with freely selectable sample sizes
